MOUNT YOUR LIGHTS AND OTHER ESSENTIAL ACCESSORIES WITH NO HOLES IN YOUR ROOF

ACARI™ DRILL-FREE MOUNT

**100%
AMERICAN
MADE**

ACARI™ LP SERIES

Over the past 4 years, ACARI Engineering has successfully introduced a revolutionary way to mount lights and equipment to the fleet truck market. With over 25,000 ACARI RTMs in the field, we have listened to our customers and have developed changes in design that make the ACARI experience easier, faster, lighter, and better.

- The New Acari LP Series continues to provide the same aluminum backbone structure and proprietary clamping system.
- ACARI has reduced weight and decreased wind resistance by 35%.
- The ACARI LP Series is the same 22" in width, but 1" longer front to back, providing increased surface area for your lighting accessories.
- The LP Series features a NEW UV protected black satin powder coat finish.
- The LP Series eliminates the heavy upper deck, endcaps, and gaskets.
- The installation of the LP Series is even easier and less time consuming.

Installs Easily In About 30 Minutes

ACARI™ DRILL-FREE MOUNT
