DRILL-FREE WORK VAN MOUNTING

Vantage Series

Work van rear accessory bezels and roof-top mounts

VS-FTH-A roof-top mount carrying a lightbar, VS-FTH-BZ bezels either side. No holes drilled.

Bezels cut and fitted to the customer's own lights. Any brand, any pattern.

The Vantage Series mounts warning lights, work lights, cameras and antennas to commercial work vans using each vehicle's factory mounting points. Nothing is drilled. Nothing is permanently modified. The van leaves the shop looking factory and comes back off lease the same way. ACARI has engineered drill-free mounting since 2010, and every Vantage component is manufactured in the United States.

ZERO DRILLING
Installs to existing factory points. No holes, no leaks, no rust, no permanent modification.

OEM CONDITION
Protects vehicle warranty, resale value and lease return condition. Clean de-upfit at end of life.

BUILT TO LAST
Ultra matte black powder-coated aluminum. Korad-capped ABS. Engineered and manufactured in America.

CLEAN INSTALL
Vehicle-specific fit. Wiring routes through the factory CHMSL opening and stays out of sight.

VEHICLE FITMENT

VEHICLE	CONFIGURATION	MODEL YEARS	ALUMINUM ROOF-TOP MOUNT	ABS REAR BEZEL
Ford Transit	Medium Roof	2022 to current model year	VS-FTH-A	VS-FTH-BZ
Ford Transit	High Roof	2022 to current model year	VS-FTH-A	VS-FTH-BZ
Ford Transit	Low Roof	2024 to current model year	—	VS-FTL-BZ

PRODUCT SPECIFICATIONS

VS-FTH-A

Aluminum roof-top mount · Ford Transit Medium & High Roof

FITMENT	Ford Transit, Medium Roof and High Roof, 2022 to current model year
MOUNT AREA	9.5 × 20 in
MATERIAL	5052 aluminum, ultra matte black powder coat
WEIGHT	6 lb

VS-FTH-BZ

ABS rear bezel, left and right pair · Ford Transit Medium & High Roof

FITMENT	Ford Transit, Medium Roof and High Roof, 2022 to current model year
MOUNT AREA	Two surfaces, one per bezel, each 14 × 2 in
MATERIAL	Black ABS, 0.200 in nominal, with Korad® weatherable acrylic cap film
WEIGHT	2 lb per pair
SUPPLIED AS	Left and right bezels · 4 gasket sections · 2 retaining clips with VHB pads fitted · 4 clip screws · 4 CHMSL screws · instructions
KEY FEATURES	Mounts either side of the factory CHMSL. Supplied without apertures, so the installer cuts to the exact light being fitted.

VS-FTL-BZ

One-piece ABS rear bezel · Ford Transit Low Roof

FITMENT	Ford Transit, Low Roof, 2024 to current model year
MOUNT AREA	Two surfaces on one bezel, each 7.5 × 2 in
MATERIAL	Black ABS, 0.200 in nominal, with Korad® weatherable acrylic cap film
WEIGHT	2 lb
SUPPLIED AS	One-piece bezel · hardware · weather-resistant gasketing · instructions
KEY FEATURES	Single-piece low-roof profile that spans the factory CHMSL, with a mounting surface either side of it. Supplied without apertures. Wiring passes through the existing CHMSL opening.

SPECIFICATIONS COMMON TO THE SERIES

ITEM	SPECIFICATION
Installation method	Drill-free. Stainless steel fasteners into existing factory mounting points, plus VHB adhesive bonding. No holes, no permanent modification.
Maximum accessory load	VS-FTH-A: 10 lb · VS-FTH-BZ: 3 lb per bezel · VS-FTL-BZ: 3 lb per side
Light apertures	None pre-cut. Accepts any surface-mount light, camera or antenna of the correct size, from any manufacturer.
Bezel surface protection	Korad® weatherable acrylic film capped to the ABS. Holds color and gloss under UV, moisture, heat and cold, resists yellowing, and adds abrasion, detergent and mildew resistance.
Wiring	Through the existing center high-mount stop lamp (CHMSL) opening. No new roof or body penetrations.
Electrical content	None. Purely mechanical assemblies. No electronics, wiring harnesses or light sources.
Installation time	Under 30 minutes per vehicle
Country of origin	Designed and manufactured by ACARI Engineering Company, LLC in Deep River, Connecticut.
Warranty	1 year.

NOTES FOR SPECIFIERS

Any light, any manufacturer. Nothing ships with pre-cut apertures. The installer cuts to the exact light, camera or antenna being fitted, so a fleet is never locked into one lighting brand.

Additional platforms. The Vantage Series is expanding to further work van platforms. Contact us for current availability before specifying a vehicle not listed above.

Pricing and availability. Contact ACARI or your distributor for dealer pricing, order quantities and lead times.
